Are ideas presented connected with the aim of the project?	Are the ideas presented clearly supported with evidence and logical argument?	Is it easy to follow & to understand? (Are the slides clear and easy to follow e.g. use of new pictures, words, graphs)	Overall impression (is it a group presentation etc.?)
40%	30%	20%	10%

35%	25%	15%	5%
Comments (space will expand as you type) There is no number of slide pages and should make the slide more interesting, such as charts. Lack of clear evidences for making the assumptions and hard to understand about the assumption because too much information in each slide. Presentator has confident to explain the assumption they made.

## Rules and process

### Rules.

- The spirit of feedback should be positive and constructive.
- Personal attacks are not acceptable.
- This is not an opportunity to deal with past grievances.
- Avoid personalizing your comments e.g., “Bob comments in section one are rubbish”.
- Keep comments as objective as possible.

### Process

The following are some notes to help you with this process.

- Focus on constructive comments that include the positive and negative e.g.:  
*The section on company background is simple, clear and easy to follow.*  
*The format on p.6 changes. See the font size there as compared to p.5.*

- Keep comments as objective as possible by highlighting sections/position  
*We found your research question 2 (section 3.1.2) hard to understand.*
- In terms of the sections above (ABCD):
  - A: Does the group cover key aspects of the material? *E.g., if it is a proposal are the nine sections included?*
  - B: Is relevant detail included in each of the sections? *E.g., Is the part of the proposal on time frames cover the period of the course? Are the questions/objectives clear, precise?*
  - C: Is the layout easy to follow and attractive? *E.g., are sections numbered? Page numbers? Bullets used?*
  - D: Is this a group effort? *E.g., Does the report flow as a 'whole' or does it look like several parts with little connection? Do the ideas compliment each other all the way through?*

Comments (space will expand as you type) Clear slides Good logic Well explained Not confusing at all, I think that it was well explained Answered the questions well No page numbers on slides It was short so I know the other group members had no chance to present, but the other members sitting at the front looked bored A pie chart would have looked really good!.

Comments (space will expand as you type) Nice 'warm' start but don't forget to tell us basics e.g., today our objective is to...  Don't forget to animate - critical when you are explaining a flow of ideas / explanation like this.  Nice job!  In the discussion we also highlighted there may be difference policies for sharing the tips. If they only share with front of house then chef's income will be even higher.
