Rules and process

Rules.

- The spirit of feedback should be positive and constructive.
- Personal attacks are not acceptable.
- This is not an opportunity to deal with past grievances.
- Avoid personalizing your comments e.g., “Bob comments in section one are rubbish”.
- Keep comments as objective as possible.

Process

The following are some notes to help you with this process.

- Focus on constructive comments that include the positive and negative e.g.:
The section on company background is simple, clear and easy to follow.

The format on p.6 changes. See the font size there as compared to p.5.

- Keep comments as objective as possible by highlighting sections/position
We found your research question 2 (section 3.1.2) hard to understand.
- In terms of the sections above (ABCD):
 - A: Does the group cover key aspects of the material? *E.g., if it is a proposal are the nine sections included?*
 - B: Is relevant detail included in each of the sections? *E.g., Is the part of the proposal on time frames cover the period of the course? Are the questions/objectives clear, precise?*
 - C: Is the layout easy to follow and attractive? *E.g., are sections numbered? Page numbers? Bullets used?*
 - D: Is this a group effort? *E.g., Does the report flow as a 'whole' or does it look like several parts with little connection? Do the ideas compliment each other all the way through?*

Comments (space will expand as you type) Nice slides, but could be cleaned up a bit... thre red is a little distracting Slide 3 is a bit strange cause the graph goes through the red area...get rid of the red part I wish you had converted the dollars on your slides and maybe added more comparison information, cause its really interesting, maybe even compared it to other restaurants Slide 5, you should highlight the low income part more You guys are a good team!

Comments (space will expand as you type) Four questions for this topic - now bring them on, first.... second.... third... Driving hobits - novel idea! Slide animate and organized well but reduce the words on the slides. e.g., slide 4 could take of many of the words here. Many details - reduce some of this to keep presentation a little tighter around core issues.
